

Connection Diagram

Key Specifications

Inputs			
Type	Number	Spec	
HDMI 2.0 (HDCP 2.2)	x 5	HDMI2.0 (CEA-861)	≤4096x2160_60Hz
DP 1.2 (HDCP2.2)	x 3	DP 1.2 ( VESA )	≤4096x2160_60Hz
CVBS	x 2	PAL / NTSC	
DVI	x 2	PC (VESA) /CEA-861	≤1920 x 1200_60Hz
SDI (SDI / HD-SDI / 3G-SDI)	x 2	SMPTE 259M-C	480i_60Hz
		SMPTE 292M	576i_50Hz
		SMPTE 274M / 296M	720p, 1080i, 1080p
		SMPTE 424M / 425M	
Output			
Type	Number	Spec	
HDMI 2.0	x 2	3840x2160_60Hz	
HDMI 2.0 (LoopOut)	x1	3840x2160_60Hz	

Key features

Input

- ◆ 5ch UHD digital interface, including DP1.2 × 2, HDMI 2.0 × 3
- ◆ Support 4K2K@60Hz Max, 1080p@60Hz and so on.
- ◆ Support HDCP1.4/HDCP2.2

Output

- ◆ 6ch DVI/HDMI output, synchronized splicing, drive LED with 12 million pixels
- ◆ Each output, any input signal crop, freely adjust size and position of output image
- ◆ User-defined output resolution
- ◆ Auto calculation mosaic, fast mosaic
- ◆ Each output can adjust color, RGB and bias independently
- ◆ 13 preset display modes, display mode duplicate, display mode backup

Image processing

- ◆ real 10 bit image processing, color more vivid and natural, color transition more smooth

Others

- ◆ Genlock syn cascading . if 4 A65 cascading , extend input to 8K4K@60Hz ,output up to 12K4K@60Hz.
- ◆ Various methods of setting and controlling, like front panel button, RS232, USB, LAN,WIFI etc.
- ◆ Widely applied to small pitch LED display projects.

**A65 Series**  
4K\_60Hz mosaic processor

real 10 bit image processing

10 bit color transition more smooth

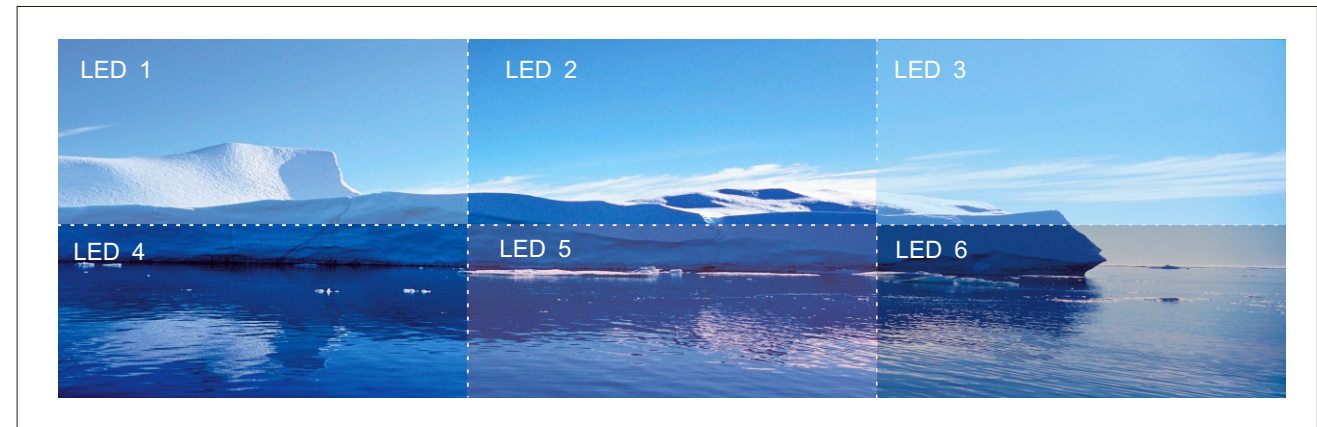

8 bit obvious color lost

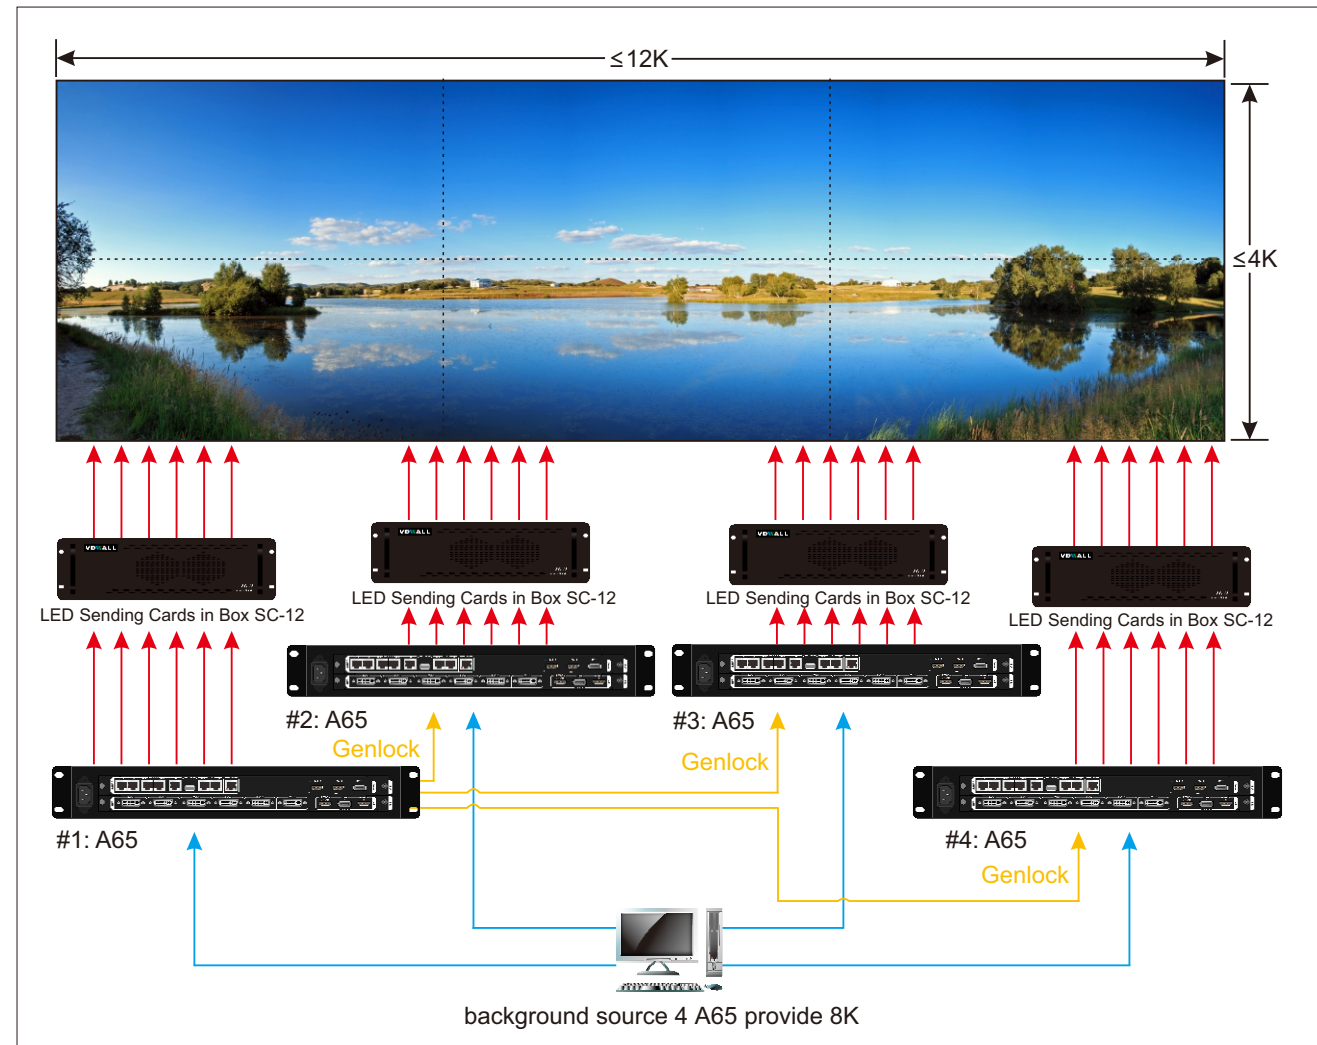

Description :

- ◆ color more vivid and natural, color transition more smooth

Support color gray level adjustment in independent RGB channel

Hemlock Genlock synchronized splicing

6 DVI/HDMI outputs, synchronized mosaic, driving capability up to 12 million pixels

Description :

- ◆ 6 outputs, 12 million pixels driving capability. Completely synchronized splicing, smoothly high speed motion picture display without jaggies, tearing or misalignment

Connection Diagram

Key Specifications

Inputs			
Type	Number	Spec	
HDMI 2.0 (HDCP 2.2)	x 3	HDMI2.0 (CEA-861)	≤4096x2160_60Hz
DP (HDCP2.2)	x 2	DP 1.2 (VESA)	≤4096x2160_60Hz
Output			
Type	Number	Spec	
DVI/HDMI	x 6	1200X1960_50Hz	1440X1680_50Hz
		1680X1440_50Hz	1920X1080_50Hz
		1920X1200_50Hz	2048X1200_50Hz
		2160X1160_50Hz	1200x1600_60Hz
		1440x1440_60Hz	1920x1080_60Hz
		1600x1344_60Hz	2160x960_60Hz
		User-defined Output Format	

Key features

Inputs

- ◆ 12 input ports, support mixed SD(Standard Definition), HD(High Definition), UHD(Ultra High-Definition) input, including 6 UHD Inputs@ 4K2K\_60Hz, HDMI2.0 × 4, DP1.2 × 2 (HDCP1.4 / HDCP2.2)
- ◆ Support maximum resolution up to 4096x2160@60Hz

Multi-window Processing

- ◆ 4 windows 6 images display, random zoom in/out and overlay display
- ◆ 4 windows layers seamless switching and Fade-in / Fade-out switching
- ◆ Any in any out(AIAO) 4K image cropping
- ◆ Windows image frame function, clearly identify different layer
- ◆ Windows image color chroma, RGB gain and bias adjustment

Outputs

- ◆ 16 DVI/DHMI outputs, synchronized joint split, driving capability up to 36million pixels LED screen
- ◆ Any size and position of cropped input and output image on each DVI output
- ◆ User-defined output resolution
- ◆ Adaptive calculation aided splicing, auto calculate mosaic
- ◆ Each output image independently color chroma, RGB gain and bias adjust
- ◆ Synchronous backup, 16 DVI output can be used as 8 main output with 8 backup output

Others

- ◆ 13 preset multi-window display and output mode, support mode duplication and backup
- ◆ Flexible and convenient setup and control from panel button, remote PC control via RS232/USB/LAN
- ◆ Designed and widely applied for various kinds of small pitches LED screen display system

**D6000 Series**  
4K\_60Hz multi-window mosaic processor
